# ABOUT WIRA TRANSPLANT MALAYSIA

# WIRA TRANSPLANT MALAYSIA

## WHO ARE WE

Wira Transplant Malaysia is a patient-led non-profit advocacy group dedicated to improving the lives of transplant patients and raising awareness about organ donation across Malaysia. It was initiated by the Rotary Club of Melawati and founded by transplant patients and supporters. Our mission is to bridge the gaps between patients, donors, caregivers, and healthcare professionals through support, education, and community engagement. The organization is also now part of the Rotary International's Rotary Action Group globally.

## MISSION & OBJECTIVES

-  Raise awareness about the importance and life-changing impact of organ transplantation in Malaysian communities
-  Provide emotional, informational, and financial support to donors, recipients, and their families
-  Support healthcare professionals through advocacy and collaboration with medical organizations
-  Host events such as the Monthly “Transplant Awareness Walk” and community outreach programmes to connect, educate, and inspire
-  Enable wider public involvement — from rural areas to urban centres — to promote organ donation awareness and dispel myths, especially in religious and cultural contexts where misconceptions persist

# WIRA TRANSPLANT MALAYSIA

## CURRENT LANDSCAPE & CHALLENGES

Malaysia ranks among the lowest globally in cadaveric organ transplant rates — only 20–40 cadaveric transplants are performed each year

In 2024, just 82 cadaveric organ pledges were made nationwide

Nearly 10,000 adults (plus hundreds of children) are waiting for kidney, liver, heart, or lung transplants — underscoring the urgency for greater awareness and donor pledges

## BARRIERS & SOLUTIONS

Misconceptions, particularly in rural and religious communities, remain a key barrier to pledging. Low public awareness, a shortage of trained specialists, and limited institutional support further slow transplant rates.

# WTM & SPECIAL SELECT COMMITTEE

Why did **WIRA TRANSPLANT MALAYSIA** present to the Special Select Committee on Health (JKPK Kesihatan) in Parliament?

And what exactly is the role of this Committee?

Here's a brief explanation ↗

The Special Select Committee on Health (JKPK Kesihatan) is a parliamentary body made up of Members of Parliament from both government and opposition, formed to scrutinise, evaluate, and advise on all matters related to national health policy and the Ministry of Health (MOH).

Their role is to:

- Review key health issues affecting Malaysians.
- Call for meetings and presentations from relevant agencies, NGOs, and experts.
- Recommend improvements or policy changes to Parliament and the Government.
- Ensure accountability, transparency, and effective reforms within the health sector.

Our presentation to them allowed Wira Transplant Malaysia to raise real issues faced by transplant recipients, donors, and the medical fraternity — from policy gaps to patient welfare and transplant ecosystem reform.
